OSLT

Occupation-specific Language Training

Are you new to Canada?

Do you want to communicate better at work?

Occupation-specific Language Training (OSLT) helps develop the language skills you need to succeed at your workplace. Most courses are offered in English (OSLT); some are also offered in French as FLAP (Formation linguistique axée sur les professions). OSLT courses are free to eligible participants and delivered by Ontario public colleges.

Courses are offered part-time or full-time in blended or online formats. Blended courses integrate virtual or in-person classes with online activities, and they are typically 140 or 180 hours (10–18 weeks). Online modules are 40 hours (6 weeks). Contact your local college to find out about course options.

You will learn to:

- communicate clearly and effectively with others at work.
- understand Canadian workplace culture in your field.
- build your professional network and advance your career.

“The course was very useful because it prepared us well for communicating in the workforce... I feel more confident about communicating at work and I have adapted smoothly in the workplace because of what I learned in the course.”

– Jadal Abdul Rahim,
Workplace Communication Skills for Accounting and Finance

Communicate more confidently in
your occupation with OSLT.

▶ Business

- Accounting and Finance Personnel
- Entrepreneurs and Sales & Marketing Personnel
- Managers in Business and Technology Environments
- Project Managers

▶ Health Sciences

Health Care

- Dental Hygienists
- Medical Laboratory Technologists
- Medical Radiation Technologists

- Engineering Technologists
- Construction Project Managers
- Building Officials

▶ Technology

- Architectural Technologists and Technicians
- Engineering Technologists and Technicians
- IT Personnel
- Project Managers

OSLT participants must be permanent residents, convention refugees/protected persons, Ukrainian temporary residents or their dependants in Canada (until March 31, 2025), or temporary residents affected by the crisis in Gaza (showing “MOME2023” in status documentation until March 31, 2027). They must live in Ontario and have:

- training or experience in a specific occupation or sector, but need to improve occupation-specific language skills.
- a valid language proficiency of at least level 5 in Canadian Language Benchmarks (CLB), or Niveaux de compétence linguistique canadiens (NCLC) for courses taught in French. Some courses require higher CLB levels.

“The training is very practical – we wrote letters and practised conversations that would happen on the job... I always recommend the training to other immigrants – it’s a good fit for people who are skilled in certain areas and want to get ahead, and it’s free.”

– Bella Kravtsov,
Workplace Communication Skills for Health Care

Pursue workplace language training that will help you to:

- communicate better with clients, supervisors and colleagues.
- understand your sector and occupation in Canada.
- understand Canadian workplace culture in your field.
- develop strong interviewing, networking and job-search communication skills.
